DIVIDEND NOTICE.

GRANITE MOUNTAIN OIL CO.

At a meeting of the Board of Directors of the
Granite Mountain Oil Co., heid at Beaumont,
Tex., Thursday, March 5, 1922, at 4 p. m., a 4
per cent dividend was officially declared, payable to all stockholders of record April 1, 1962.

Beaumont, Tex., March 5, 1922.

STOCK MARKET ANIMATED AND PRICES MOVE UPWARD.

ALMALGAMATED COPPER SHOWS FLUCTUATIONS.

Rumors Afloat Regarding the Next Dividend Cause Distrust Among Traders.

New York, March 12.-There was some show of animation in to-day's stock market there were more of the usually prominent Copper, in which there was evidence of l'quidation, with only occasional intermismentary check. The extreme decline reached send will be reduced or passed. No authorsubject, nor on the many reports that the marketing of the company's surplus stock had involved heavy losses. The weakness of this stock gave an occasional check to

Cover in Alarm.

Covering by alarmed shorts seemed to play a part in the advance, especially in the soalers, which have been freely sold on rumors that the anthracite miners were determined to push demands that would not be granted. To-day equally assured predictions were heard that there would be no ishor troubles in the coal trade and that there was no authoritative information on his subject, either. Another case where speculative sentiment was reversed from that of yesterday was on the outhook for the winter wheat crop, on reports of copious ains in Texas and the Southwest. Buying it of yesterday was on the outhook for the winter wheat crop, on reports of copious ains in Texas and the Southwest. Buying it of yesterday was on the outhook for the winter wheat crop, on reports of copious ains in Texas and the Southwest. Buying it of yesterday was on the outhook for the winter wheat crop, on reports of copious ains in Texas and the Southwest. Buying it of yesterday was on the advantage of a reported increase in tross earnings for the first week of March. The calmness of the money market was the linal factor of a general character on the trength in stocks. The rate for money is irm and nobody is found to predict an arry relaxation of rates, but feeling was easured to-day that there is no immediate langer of forcing a condition of stringency.

langer of forcing a condition of stringency.

Trast Companies Relieve Banks.

It is supposed that the trust companies are putting out ioans at the higher rates and thus relieving some of the pressure upon the banks. This shifting of loans from the banks to the trust companies does not affect any strengthening of the money martet, as the cash reserves of the trust companies are on deposit with the banks and he altimate reserve against the loans is hus unchanged, but the legal limitation ipon the banks to keep up the cash reverse to be per cent of the deposits makes his reduction of their loan and deposit account desirable for its shifting of deposit labilities upon the trust companies which the same agreement of the shifting of deposit in the same agreement.

Wall Street Gossip. Reported by the New York Commercial-Adver-tiser, through Francis, Bro. & Co., No. 214 North Fourth street. Leadon operations in this market to-day were very light, amounting to about 7,000 shares, most-

There was fresh talk of a deal between Wis-consin Central and the Pennsylvania. So many buying orders were distributed around the room that the traders concluded there was a pool at work. The common and the preferred were the artive leaders at the opening having scored sharp sidvances.

Missouri Pacific, reports of rain in the winter wheat belt and the good statement of earnings led to covering of Missouri Pacific by room shorts. Although the first week March gross earnings increased 327,000, the Central branch earnings decreased \$5,500.

There was a widely distributed the sell Amalgamated shortly after opening, and room traders sold it short freely, lines which were covered on yesterday's raily being put out again. The stock yielded rather easily, and there was some commission-house selling on long stock. Practically no support from instifers was forthcoming, although some called Standard Oil buyers took small amounts on the decline. It was said that the dividend meeting would be adjourned for want of a quorum. This led to rumors that the dividend would be passed altogether. The annual reports recently published of various copper-producing companies indicate that last year's business was not very profitable, owing to the low price for metal.

The leaders of midday rally were the Readings. Prominent commission houses bought the second preferred freely. Buying orders were said to have been received by Morgan brokers. The sharp rise in the common started with heavy purchases by Fahnstock, believed to be for the First National syndicate. A fairly large short interest, was frightened and the stock rose on their covering. The latest rumors regarding the likelihood of labor troubles were encouraging. Officials of companies said they anticipated no strike.

The Pennsylvania Railroad directors have approved an issue of \$50,000,000 of \$1\sqrt{\text{i}}\$ per cent bonds at par to stockholders conventible into stock at 100 after May I. 1904. The proceeds of bonds will be used as follows: \$25,000,000 to pay for new equipment, \$20,000 for real estate and tunnel in next two years and \$5,000,000 for corporate purposes.

NEW YORK CURB MARKET. Day Opens Well, but Brisk Trading Comes Later.

REPUBLIC SPECIAL.

New York, March 12.—The curb market to-day opened duil, but with a generally steady tone. Initial price changes were nominal, and early dealings were restricted to a few issues, and were generally in small volume. Later the curb market developed a more active condition, but with irregularity. Copper shares developed weakness and losses as a result of seiling in sympathy with the bear raid and decline in Amalgamated Copper on the Stock Exchange. The more standard issues beld steady, but with restricted trading. The close was irregular, and with total transactions estimated in the neighborhood of 20,000 shares.

Mexican Nattional common soid at 20,0204 for 1,500 shares; Northern securities was strong, and 1,200 shares soid at 102,0214. Corn Products common soid at 35%3345. Colorado Fuel bonds soid at par for 21. Consolidated Refrigerator was active and strong, about 5,000 shares selling at 55%1. Nortolk and Western bonds soid at 55 fist for 2 and 20 shares of Seaboard Air Line Prisance.

TRACTIONS SELL HIGHER

PREFERRED IS ESPECIALLY STRONG.

Market Generally Bullish, With Good Buying of Colonial and Commonwealth Trust.

There was the strongest kind of inside support for tractions yesterday, and all three of the active issues of the syndicate ompanies closed strong and higher, Transactions showed that there was by no means unanimity of opinion as to the report issued Tuesday. Large holders generally were anxious to have it construed as builtsh, but many of the small fry were willing to let go on every advance, and at times sell-the market up to \$29.12%. At the close the ing was in sufficient volume to cause recessions. At the opening Transit sold is cents a share up at \$25.624, and advanced to \$23.75 before rather free offerings resulted in a decline to \$25.59 before the reaction set in. Good buying in large blocks by interests supposed to be large blocks by interests supposed to be closely identified with the company carried the market up to \$3.12\footnote{Market up to \$3.12\footnote{Market up to \$3.12\footnote{Market up to \$3.12\footnote{Market up to \$3.18\footnote{Market up the close the best price obtainable was \$27.87\footnote{Market up to the day being 50 cents a share. United Railways preferred was more consistently bullish, with an advance from \$4.7\footnote{Market up to \$3.7\footnote{Market up to \$4.7\footnote{Market up to \$4.7\foo New Mercantile easy at \$410.

At the afternoon session, about 700 shares of Transit changed hands at \$28.574; and \$29, the bulk of trading being at the lower figure. Preferred was well taken at \$84.574; and \$85, and the 4-per-cent bonds were strong at \$85.50. After selling at \$430, Mississippi Valley Trust was bid up to \$434.50. Colonial and Missouri were stronger, the former at \$224 and \$225 and the latter at \$134. New Commonwealth Trust continued to advance, with sales at \$226.

Use in Russia Promises Revival of Mississippi Traffic.

A revival of river traffic in the Mississippi Valley is promised by heavy oil interests as a result of the prospective substitution of Beaumont oil for coal as fuel for steamers.

Such a change has already taken place in Russia, where the product of the great oil fields is similar chemically to that of the Texas and Louisiana wells. According to the London Express. "In Russia oil holds absolute sway. From liaku to Nishni Novgorod petroleum finds favor on raliways and steamships slike. For 2000 miles along the Volga boats ply from north to south propeled by means of oil, of which \$000,000 tons is used in Russia alone."

Steamboutmen have long complained that they were unable to get satisfactory prices on coal, must of the mines being owned or controlled by their rivals, the railroads. On this account it is expected that they will readily change fuels. A sufficiency of oil for a long trip would weigh less than har as much as coal capable of supplying the same power, and be far less buiky. As heavy navigation on many of the streams tributary to the Mississippi River is impossible much of the year, because of low water, any change of fuel which will decrease the necessary burden and so lessen the draft of the boats will make for longer terms of activity each year in the navigation of comperatively shallow waters. Even on the Mississippi the heavier boats are limited to the southern part of the stream throughout the dry summer season.

If a cheap, light fuel, such as oil promises to prove, can be introduced, the decadent river traffic might be resumed in its pristine glory, much to the benefit of St. Louis and other river marks. Mississippi Traffic.

MARKET OVERSOLD IN THE RUSH FOR LOWER PRICES.

Wheat Makes a Rally and Closes Only a Shade Down, With Corn and Oats Higher.

Chicago, March 12.-Strong bearish argument in the shape of news of coplous showers all over the Southwestern wheat fields influenced liberal sales in both wheat and corn to-day, but bears went to extremes and oversold the markets. As a result a few bits of otherwise unimportant news started covering, and May wheat closed only a shade under, May corn \*\$\text{80}\$\text{1c} bigher and May outs \*\$\text{5c}\$ up. Provisions gained 25

Bears started to sell wheat liberally at the opening on the rain reports. The Southwest, which has been reported as suffering badly for moisture, seemed to have received a good drenching. At any rate, the bear argument was strong and as depressing as traders expect any news to be for some time. In the speculative mind the danger from damaged crops is past. This started May wheat 'Affect to 'Agric down at '56',676c, and influenced a further dip to '56',676c. And influenced a further dip to '56',676c, and influence of intent strength. Trade was only moderate, but it was nearly all on the seiling side, until covering set in. Two days ago May wheat was selling at '35',6. At the low price to-day short sales made at the high figures made good profits and the crowd soon saw that the market was oversold. On top of this came news of a disposition toward better business at the senboard. May sold up sharply to '56', and closed almost firm, a shade lower at '56',c. Throughout the day shorts were nervous. The corn strength also developed an affective influence late. Local Wheat. were nervous. The corn strength also developed an affective influence late. Local receipts were 25 cars, no contract; Minneapolis and Duluth reported 276 cars, making a total for the three points of 301, against 250 last week and 383 a year ago. Primary receipts were 560,000 bu., compared to 600,000 bu. the same duy last year. Seaboard clearances in wheat and flour equaied 280,000 bu. The seaboard reported 60 loads taken for export, of which 50 were said to be of Manitoba wheat.

Corn.

Corn. Corn.

Corn.

Corn opened a little easier on the wheat weakness, and bears did some short selling. The rain, however, started the buils to talking of a further hindrance of the movement to market. Trade was not active, but receipts were small, as usual. As the wheat weakness began to disappear corn picked up marked strength. Shorts were nervous, the market got oversold and covering was the order of the day. This sent May up from 61%c to 62%c, and brought a firm close, % pick higher, at 62% 662%c. Receipts were 183 cars.

Outs.

Oats were fairly active and nervous at the opening. The tone was strong on a further withdrawal of 48,756 bu. of No. 2 oats from stocks, making a reduction of one-third of the total Chicago stocks since Monday. May opened unchanged at 44% and advanced quickly to 45%c. Trade then turned duli and was a scaiping affair. The late corn strength and short covering gave the closing impetus, and May ended the session strong, %c up at 45%c. Receipts were only 64 cars.

Range of Futures.

Range of Futures. Receipts and Shipments.

Provisions were dult, but ruled firm, with coarse grains and higher prices for hogs. May pork closed 10s up at \$15.45; May lard 15c higher at \$3.425, and May ribs \$55 higher at \$3.425, and May ribs \$55 higher at \$3.425, estimated receipts to-morrow: Wheat, 35 cars; corn, 110 cars; oats, 75 cars; hogs, 32, 900 head.
